About Us

Beni Exports is one of the exclusive designers, manufacturers and exporters of luxury handmade furniture and handicrafts based in Rajasthan, India. We started our journey in 2020 at B2B market place with only Epoxy Resin Furniture and with years of dedication and unwavering commitment, we have truly mastered the craft of Epoxy Resin furniture and decor. In a short period of time, we've proudly served a diverse range of clients, including Retailers, Traders, Interior Designers and Architects.

Later we introduced some new exclusive products like Hyper Realistic Artificial Rocks and Modern Dog Houses. Our team has poured creativity and innovation into every detail of these offerings, aiming to provide you with something truly extraordinary. These products have been meticulously crafted, ensuring they stand apart in terms of both design and functionality. Our furniture is built with strict attention to detail — every piece is built by the same craftsman from start to finish.

A large, rustic wooden table with a vibrant blue resin inlay design. The wood has a natural, weathered appearance with visible grain and knots. The blue resin is poured into the natural cracks and voids of the wood, creating a striking contrast. The table is set against a dark background, and the lighting highlights the texture of the wood and the glossy finish of the resin.

Resin Furniture

At Beni Exports, we transform ordinary pieces of wood into extraordinary masterpieces. Each piece of river furniture is a testament to our unwavering commitment to quality and attention to detail. From hand-selecting the finest sustainably-sourced wood to meticulously pouring and shaping the epoxy, every step of the process is carried out with precision and dedication. The result? Furniture that encapsulates the beauty of nature while embracing the contemporary art of resin design.
